

FREE Event Safety Awareness Checklist

For Event Planners & Organizers

Preparedness • Crowd Safety • Real-Time Awareness

Purpose of This Checklist

Events bring people together—and with that comes responsibility. This checklist is designed to help event planners and organizers increase safety awareness, identify potential vulnerabilities, and support calm, coordinated response planning. It is meant to educate and reassure, not alarm, and to reinforce that TDSS is here to help.

Common Vulnerable Areas at Events

- Main entrances, ticketing areas, and credential checkpoints
- Back-of-house access points and service corridors
- Crowded gathering areas, stages, and seating zones
- Parking areas, drop-off zones, and exterior perimeters
- Alcohol service areas and high-emotion zones

Why 24/7 Security Monitoring Matters for Events

Events are dynamic environments where conditions change quickly. 24/7 security camera monitoring provides real-time visibility into crowd movement, access points, and developing situations. Live awareness allows faster response, improved coordination, and safer outcomes for attendees, staff, and performers.

Event Safety & Preparedness Checklist

- Entrances and exits are clearly defined and monitored
- Crowd flow areas are visible and free of blind spots
- Security cameras are actively monitored—not review-only
- Backstage and restricted areas are secured
- Lighting supports visibility throughout the venue
- Clear escalation and emergency response protocols exist
- Staff and volunteers know how to report concerns
- Live video can support on-site security and responders
- Safety plans are reviewed before, during, and after the event

How TDSS Supports Event Safety

TDSS provides 24/7 security camera monitoring and proactive security support for events of all sizes. We integrate with existing camera systems or deploy temporary or permanent solutions as needed, connecting them to our secure monitoring network. Monitoring is performed by licensed security professionals with prior law enforcement and military experience.

FREE Event Security Risk Analysis

TDSS offers a FREE Event Security Risk Analysis conducted by a licensed security expert with prior law enforcement experience. This assessment helps identify vulnerabilities, improve preparedness, and support safer event operations.

Call 910-999-8377 (TDSS) to schedule your FREE Event Security Risk Analysis.

Preparedness creates confidence. Visibility improves response. TDSS is here to help keep events safe.
