

## FREE Safety Awareness Checklist

For Government Agencies & Public Facilities  
Preparedness • Visibility • Public Safety

### Purpose of This Checklist

Government agencies must balance public accessibility with safety and accountability. This checklist supports awareness and preparedness by highlighting common security considerations in public-facing government environments. It is designed to educate, not alarm, and to reinforce that TDSS is here to help.

### Common Vulnerable Areas in Government Facilities

- Public entrances and lobbies with high visitor volume
- Secondary or staff-only entrances with limited supervision
- Waiting areas, service counters, and transaction windows
- Parking decks, exterior walkways, and perimeter zones
- Meeting rooms and chambers used for public gatherings

### Why 24/7 Security Monitoring Matters

24/7 security camera monitoring provides real-time visibility into developing situations. Immediate visual awareness supports faster, more informed response, reduces confusion, and helps protect staff, visitors, and first responders during critical incidents.

### Government Facility Safety Checklist

- Entrances and exits are clearly visible and monitored
- Security cameras cover public, staff, and perimeter areas
- Cameras are actively monitored—not review-only
- Secondary entrances are secured and observed
- Lighting eliminates dark or isolated areas
- Clear escalation and emergency response protocols exist
- Staff know how to report suspicious behavior
- Live video supports law enforcement response
- Security procedures are reviewed regularly

## How TDSS Supports Government Agencies

TDSS provides 24/7 security camera monitoring and proactive security solutions for government agencies. We integrate with existing camera systems or deploy upgraded technology as needed, connecting them to our secure monitoring network. Live monitoring is performed by licensed security professionals with prior law enforcement and military experience.

## FREE Security Risk Analysis

TDSS offers a FREE Security Risk Analysis conducted by a licensed security expert with prior law enforcement experience to help identify vulnerabilities and strengthen preparedness.

**Call 910-999-8377 (TDSS)** to schedule your FREE Security Risk Analysis.

Preparedness builds confidence. Visibility improves response. TDSS is here to help protect public spaces.
